DUPRO X5

MULTI CUTTING T.C.T BLADE

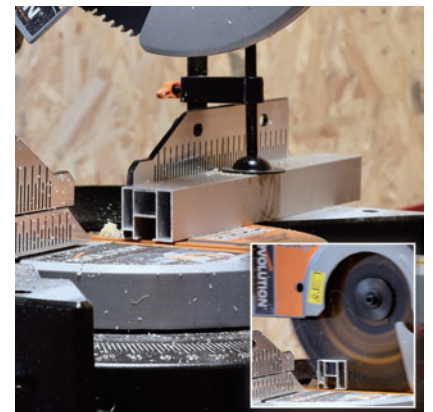

- *Special treated rigid body provides very high stability during operation*
- *Super thin kerf for easy and smooth cutting performance*
- *Unique geometry of the teeth bring the multi cutting function*
- *Teeth numbers for each size are suitable for both thin and thick materials to be cut*
- *Selected carbide tips are developed for multi materials cutting*
- *Safety according to EN847-1*

SOLID WOOD

PLASTICS

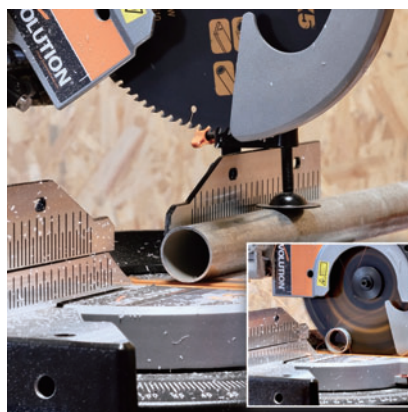

ALUMINUM

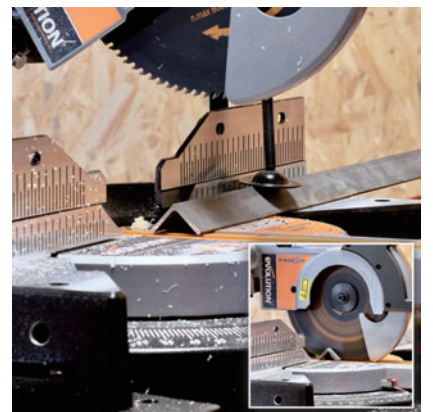

**A REVOLUTIONARY BLADE
CUTS MOST CONSTRUCTION MATERIALS
ONE MACHINE ONE BLADE**

METAL FRAME

WATER PIPE

ANGLE BAR

Thin kerf blades bring extraordinary easy and smooth cutting experience with precise geometry of the teeth

Resharpener is not recommended by unauthorized resharper.

Otherwise, the safety and performance will be guaranteed.

Suitable for most popular machines with cable and cordless machines

- B&D
- Bosch
- Dewalt
- Evolution
- Festool
- Hitachi
- Makita
- Mafell
- Metabo
- Milwaukee
- Rigid
- Roybi
- Skil
- Stanley

Dia.	Kerf	Body	Bore	Z
185	2.0	1.4	25.4/20	52
235	2.0	1.4	25.4	60
255	2.2	1.6	25.4	100
305	2.4	1.8	25.4	120

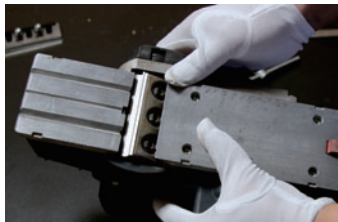

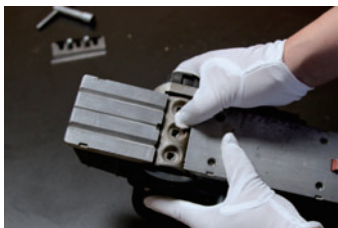

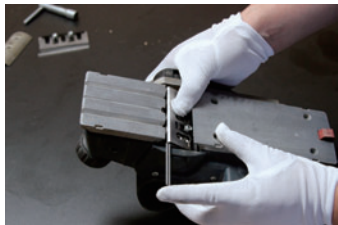

Packing	Carton	Quan.	Weight
Blister	34x30x18	30PCS	12KGS
Blister	34x30x11	20PCS	11KGS
Blister	34x30x11	20PCS	15KGS
Blister	40x37x12	20PCS	24KGS

★ **ABOUT METAL CUTTING**
The blades are developed to cut construction steels only. The maximum thickness of the steel should be within 6mm

HM PLANER KNIVES

- Solid carbide knives with two cutting edges for long cutting life
- Precise fixing groove ensure the safety and accuracy
- Tough carbide cuts wood with nails
- Safety according to EN847-1
